Subject: I believe in Uber!

Dear PCS,

I would like to cast my vote to keep Uber in Charleston and all of South Carolina. As we move into a world where community support, whether it be in the form of a spare bedroom (VRBO/AirBNB) or your car (Uber, Lift, rideshare, etc) or your culinary talents (feastly) are replacing conventional ways of business - we must adapt. Uber treats their employees fair, protect their clients and provide all of this at a fair market rate - that even requires the consumer to be aware of their purchase times (supply and demand at its best). As a female business traveler, I appreciate the no card/cash transactions, knowing the make and model of the car picking me up, knowing the name of my driver and knowing that I am being tracked in case something happens to me. This is safety and protection.

Pushing the competition away because cab companies don't like the prices is not the way to support the residents of South Carolina, that is capitalism at its worst. Find a way for Uber and the cab companies to both do business fairly, keeping your South Carolina residents happy, safe and economically capable of enjoying what each SC city/town has to offer.

Respectfully,

Karen Collins

Subject: UBER IN SOUTH CAROLINA

As a way to enhance job opportunities and providing means of transportation for thousands of South Carolinians, I am writing to object the decision of PSC ban on Uber in the state of South Carolina. South Carolina has always been the laughing stock of the country for not being proactive and modern. This is an opportunity to redeem some of that laughter by coming into the 21st Century and allowing Uber to have service in South Carolina. UBER is a very trendy yet reliable company that I absolutely love. I use uber frequently as I travel across the globe their employees and services are very safe and professional. Without hesitation I am writing to the PSC opposing the decision of banning Uber in the State of South Carolina.

Live Intentionally,

DAVION PETTY

Please rescind your cease and desist order place on Uber of SC. My wife and I use Uber exclusively throughout the US. Nothing but positive experiences. The traditional taxi needs competition.

Subject: Uber program

Dear Sir or Madam:

I hope you are well. I am writing in reference to the Commission's decision to prevent Uber from operating in South Carolina.

I hope you will reconsider your position. I live in Greenville, South Carolina. The taxicab situation here is very difficult. It is hard to find a cab, and if you do, it takes an extremely long amount of time to actually get one. This creates a dangerous situation, as people are out late waiting extremely long times to get a cab, as well as being forced to drive when there are no cabs.

Uber has made Greenville a safer place. In addition to being cost-effective, it is extremely reliable. The insurance coverage carried by Uber is more than enough to cover any injuries that may arise from the service. In addition, the background check and policies regarding their drivers instills a sense of safety and confidence in the company's operation.

I am happy to discuss this matter with you further.

Thanks,

Josh
